# 2026 4-H Engineering Technology —Educational Exhibit Score Sheet for Displays, Notebooks and Posters – All Divisions

This document supersedes and replaces all previous revisions of this form

1 = Excellent    2 = Good    3 = Fair    4 = Shows Promise    5 = Needs Improvement    NA = Not Applicable

Eye catching – Main idea is presented simply and clearly within 30 seconds of viewing exhibit for the first time.

1                      2                      3                      4                      5                      NA

Has a clear link to the Engineering and Technology areas of aerospace, astronomy, ag mechanics, computers, robotics, or uncrewed aerial systems. [§ Rule 2]

1                      2                      3                      4                      5                      DQ

Unique and/or creative ideas used in building the exhibit. [§ Rule 4]

1                      2                      3                      4                      5                      NA

The exhibit is neatly labeled and easy to read. [§ Rule 4]

1                      2                      3                      4                      5                      NA

The exhibit is well organized – includes a variety of information. [§ Rule 13]

1                      2                      3                      4                      5                      NA

The exhibit contains accurate information. Information is well documented and gives credit to original sources, if applicable. [§ Rule 3, 4, 5, & 13]

1                      2                      3                      4                      5                      NA

The exhibit provides useful information for the reader. [§ Rule 13]
